Founded in 1900, the INR 742 Billion (74,220 Crores) Murugappa Group is one of India's leading business conglomerates. The Group has 29 businesses including ten listed Companies traded in NSE & BSE. Headquartered in Chennai, the major Companies of the Group include Carborundum Universal Ltd., CG Power and Industrial Solutions Ltd., Cholamandalam Financial Holdings Ltd., Cholamandalam Investment and Finance Company Ltd., Cholamandalam MS General Insurance Company Ltd., Coromandel International Ltd., Coromandel Engineering Company Ltd., E.I.D. Parry (India) Ltd., Parry Agro Industries Ltd., Shanthi Gears Ltd., Tube Investments of India Ltd. and Wendt (India) Ltd. The Group holds leadership position in several product lines including Abrasives, Technical Ceramics, Electro Minerals, Auto Components & Systems, Bicycles, Fertilisers, Sugar, Tea and Spirulina (Nutraceuticals).

The Group has forged strong alliances with leading international companies such as Groupe Chimique Tunisien, Foskor, Mitsui Sumitomo, Morgan Advanced Materials, Yanmar & Co. and Compagnie Des Phosphat De Gafsa (CPG). The Group has a wide geographical presence all over India and spanning 6 continents. Renowned brands like BSA, Hercules, Montra, Mach City, Ballmaster, Ajax, Parry's, Chola, Gromor, Shanthi Gears and Paramfos are from the Murugappa stable. The Group fosters an environment of professionalism and has a workforce of over 53,000 employees.

Established in 1949 by the Murugappa Group in partnership with Tube Investments (UK), TI Cycles has rapidly transformed from a bicycle manufacturing company to an industry giant in mobility and well-being solutions.

Currently, TI Cycles is the key player in the 'Specials' segment with a nationwide presence bolstered by a network of around 11,500 primary and secondary dealers. The company's plants in Chennai and Rajpura possess the capacity to manufacture five million bicycles a year.

TI Cycles' flagship brands include BSA, Hercules, Montra and Mach City. The brand is credited with many of India's firsts - the first MTB, the first geared bike, the first Shox bike, the first girls' bike, the first kids' bike, the first light Roadster, and the first carbon frame bike.

The past seven decades have witnessed TI Cycles evolve into a powerhouse that's constantly making headway to meet the consumer's needs, from innovative products to futuristic design to unique retail formats.

TREADMILL

Treadmills provide a straightforward and efficient aerobic workout. For many, treadmills are a good choice to begin a new exercise routine because most individuals can take up walking regardless of fitness level and back condition. As strength and endurance develops, the treadmill can be used for jogging and/or for interval training.

BIKES

An exercise bicycle is usually a special-purpose exercise machine resembling a bicycle without true wheels. The low-impact movement involved in operating an exercise bike does not put much stress on joints and does not involve sporadic motions that some other fitness equipment may require.
